

APPENDIX

Changes to Title:

RECEIVED

AUG 29 2001

TECHNOLOGY CENTER 2800

The following is a marked-up version of the amended title:

LIGHT SOURCE DEVICE INCLUDING A PLANAR LIGHT SOURCE HAVING A  
SINGLE, SUBSTANTIALLY CONTINUOUS LIGHT EMISSION AREA AND DISPLAY  
DEVICE INCORPORATING THE LIGHT SOURCE DEVICE

Changes to Claims:

Claims 5 and 8 are canceled.

The following are marked-up versions of the amended claims:

1. (Amended) A light source, comprising:

a first light source for emitting light of a first color;

a second light source for emitting light of a second color; and

a third light source for emitting light of a third color; characterized in that:

wherein light from said first light source, light from said second light source, and light from said third light source are synthesized by a color synthesizing optical system, and each of said first, second and third light sources is a planar light source having a single, substantially continuous light emission area.

6. (Amended) The light source device according to claim 45, characterized in that lenses are deployed between said first, second, and third light sources and said color synthesizing optical system.

7. (Amended) The light source device according to claim 45, characterized in that lens array elements are deployed between said first, second, and third light sources and said color synthesizing optical system.

A handwritten signature or mark consisting of a stylized, cursive letter 'B' with a horizontal line extending to the right.
